Since 1993, when Gary Mosley and Ellsworth Clark started the business, Atlantic Tire Center has been a Stuart 'hub' for tires and auto service.

"When a customer, old or new, walks in the door, they always seem to know someone in the waiting area," said Rhonda Cooper who often greets customers. While she spoke, a group of women chatted and laughed while sipping coffee in the customer lounge. "It has that small town feel and customers love that; we love that," Cooper said. Ellsworth Clark Jr. and son Ellsworth "E.R." Clark III are celebrating 20 years of serving multiple generations of customers with honesty and hometown service. "A lot of parents send their children here for auto service when they are home from college," Cooper said during spring break. "Parents want someone they trust to make sure their kids' cars are roadworthy."

"And women tell me they are comfortable here because we treat them with respect," she said. "We want everyone to feel they can drop in at any time to have us investigate a noise or change their oil and check fluid levels."

"Our reputation is everything," Cooper said. "Our technicians are paid a salary, not a commission. They won't sell you unnecessary parts or repairs." "Our team of employees are incredibly honest and fair," Cooper said. "And driven to get your auto problems resolved so you can get safely back on the road."

In addition to mechanical repairs with integrity, Atlantic Tire is the source for manufacturer-recommended and approved maintenance as well as quality tires and wheels. They are now offering lift kits and accessories for the truck enthusiasts. When you are quoted a price, it will be the price you pay with no hidden additional charges.

After 45 years, Jensen Beach Travel is still a Reader's Choice for family vacations, cruises, couples getaways, spring break, and even day trips. "I think it's because of our long experience, our knowledge of travel destinations, and our focus on customer service," said Kathy O'Neil, manager. "We get to know our clients as individuals; what they need and what they enjoy," she explained.

said Kathy O'Neil, manager.

"We get to know our clients as individuals; what they need and what they enjoy," she explained. "As we learn what they like and how they prefer to travel, we can make travel recommendations based on our experience." Choose the destination you prefer within your

budget. Budget-conscious consumers often choose all-inclusive cruises.

"We are close to the ports so there is no additional airfare," O'Neil said. "It's the most economical vacation."

"Your accommodations, all of your meals and all of your entertainment are included," she said. "And you only unpack once." Cruise for three days to 14 days, she said.

Right now, European river cruises are the most popular destination. Italy, the U.K. and all-inclusive Mexican resorts are all popular destinations.

As summer approaches, travelers are booking family cruises and vacations, Europe, Canada, New England and the Caribbean. In season, October through March, Jensen Beach Travel also offers numerous one-day tours in Florida.

"We are a destination ourselves and a lot of people want to get out and see more of Florida," O'Neil said.

Owner Helen Engebretsen opened Jensen Beach Travel 45 years ago and she and her travel agents have first-hand experience you won't find elsewhere.

O'Neil said she was surprised and grateful that readers voted for Jensen Beach Travel among winners of the Readers' Choice awards.
